Description

A herbal formula for men, based on muira puama, which can help to support and keep in balance a man's sex drive. If the body is in good balance and general energy level is satisfactory, this formulation can help the body to support the sexual areas and desires. If not, the body may withdraw energy from the sexual areas to keep everything else going; hence the need to treat the body as a whole. You can support general health with 3-4 months use of the *Mega-Ton Drops* or *Nve-Restor Drops*.

Standard use

First week: 3ml (1 tsp) in a little water or juice 3 times a day. Then, 1ml (1/3 teaspoon) taken the same way, 3 times a day.

How long to take it for

Take daily for a course of 3-4 months. Thereafter, take for 2-3 months if and when it is felt to be desirable. Sexual energy is supported by good general energy level. If your general energy is not satisfactory, a practitioner in natural medicine will often be able to help.
